

Zone24 – User guide

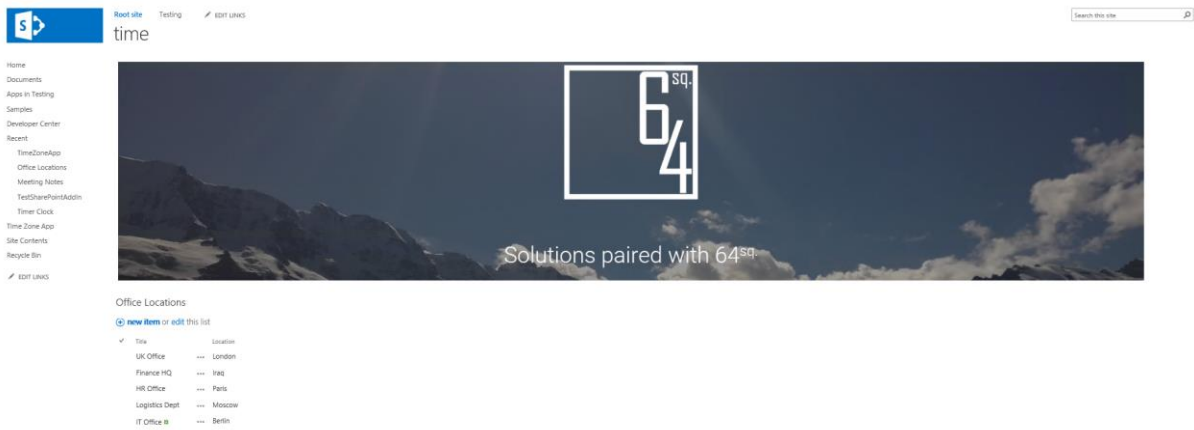

Overview

The 64 Squared Zone24 Add-in allows for 5 clocks to be displayed on a SharePoint page. The add-in will always display the local time zone of the server + 4 configurable locations.

Configuration

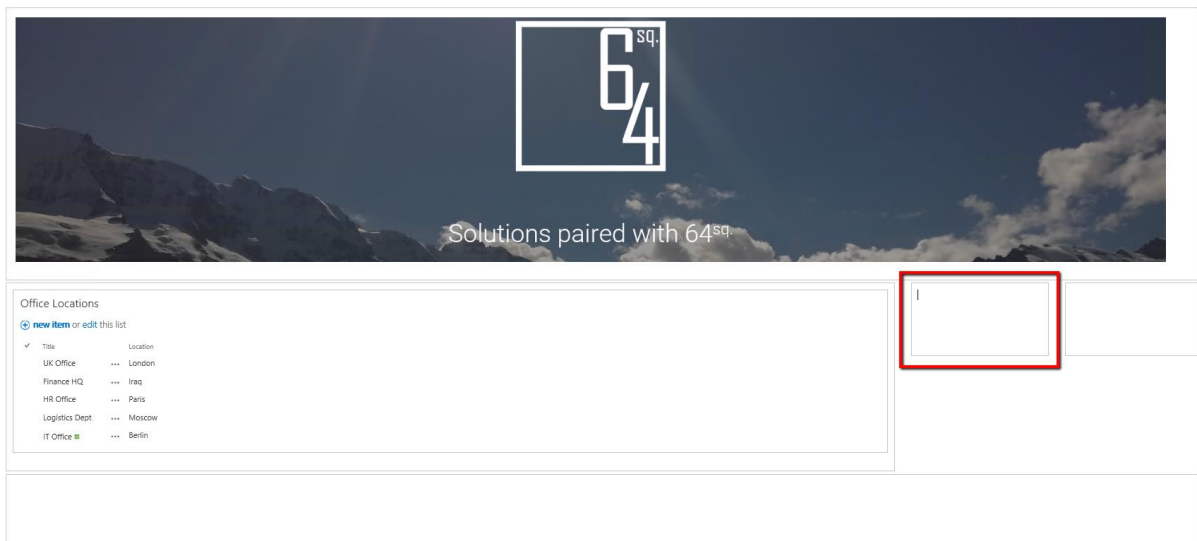

This guide assumes the add-in has already been purchased from the store and deployed. If this is not the case, please refer to the [install guide](#).

Open or create the page you would like to embed the time zone add-in

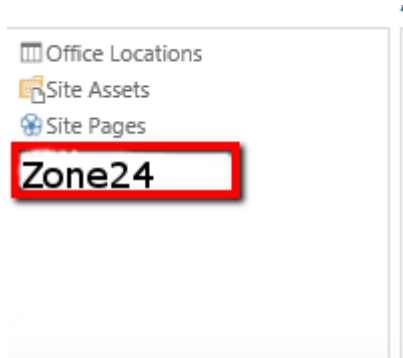

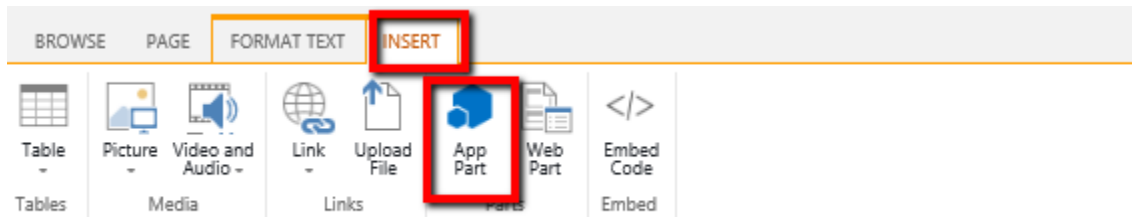

Edit the page

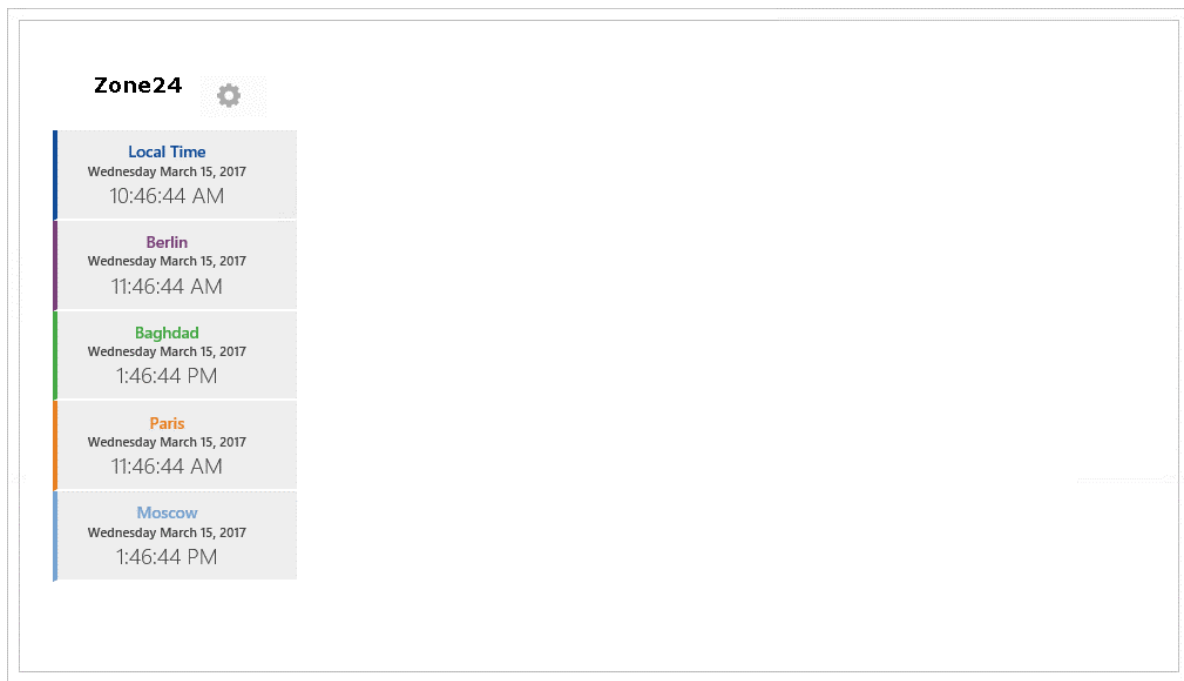

Select the area you would like the clocks to be displayed

Insert the add-in part

Click the 'add' button

The displayed times are configured via the cog on the top right corner of the add-in

To configure the layout and advanced settings of the add-in, hover your mouse over the right-hand corner of the add-in part, and click the arrow that add-inners, then select 'edit web part'

This will present you with advanced options

The image shows a configuration dialog box with a title bar containing a back arrow, the text 'Appearance', and a close button. The dialog is divided into several sections by horizontal dashed lines. The first section is titled 'Title' and contains a text input field with the value 'Zone24'. The second section is titled 'Height' and contains the question 'Should the Web Part have a fixed height?'. Below this question are two radio buttons: 'Yes' (unselected) and 'No. Adjust height to fit zone.' (selected). To the right of the 'Yes' radio button is a text input field and a dropdown menu showing 'Pixels'. The third section is titled 'Width' and contains the question 'Should the Web Part have a fixed width?'. Below this question are two radio buttons: 'Yes' (unselected) and 'No. Adjust width to fit zone.' (selected). To the right of the 'Yes' radio button is a text input field and a dropdown menu showing 'Pixels'. The fourth section is titled 'Chrome State' and contains two radio buttons: 'Minimized' (unselected) and 'Normal' (selected). The fifth section is titled 'Chrome Type' and contains a dropdown menu showing 'Default'. Below these sections are three expandable tabs: 'Layout', 'Advanced', and 'Configuration', each with a small square icon to its left. At the bottom of the dialog are three buttons: 'OK', 'Cancel', and 'Apply'.

To switch between vertical and horizontal display expand 'configuration'

The image shows a configuration dialog box for a web part. It has a title bar with a close button. The main content is organized into sections: 'Appearance', 'Layout', and 'Configuration'. The 'Appearance' section includes a 'Title' field with the text 'Zone24', a 'Height' section with radio buttons for 'Yes' (with a 'Pixels' dropdown) and 'No. Adjust height to fit zone.' (selected), and a 'Width' section with radio buttons for 'Yes' (with a 'Pixels' dropdown) and 'No. Adjust width to fit zone.' (selected). The 'Chrome State' section has radio buttons for 'Minimized' and 'Normal' (selected). The 'Chrome Type' section has a dropdown menu set to 'Default'. The 'Layout' section has a dropdown menu set to 'Horizontal'. The 'Configuration' section is highlighted with a red border and contains a 'Layout' dropdown menu set to 'Horizontal'. At the bottom, there are 'OK', 'Cancel', and 'Apply' buttons.

To display all 5 clocks horizontally we recommend setting 'should web part have fixed width' to yes: 1200
